Harshkumar Raheja

Web Developer & Web Designer

✉ harshraheja33@gmail.com 📞 +1 (514)585-3308 in LinkedIn 👤 Portfolio

Summary

Creative Front-End Developer with a passion to provide high-impact web solutions for diverse industry organizations. Skilled in designing, developing, and testing multiple web-based applications incorporating a range of technologies. Aspiring to combine broad background with strong technical skills to excel as a web developer

Technical Experience

Blog Website

- Built and designed a full stack blog website with Node, express, and MongoDB.
- On the website, visitors can read blogs written by others and can write blogs as well.
- Displaying Blogs in reverse chronological order, with the latest posts appearing first

To-do List

- Built and designed a full stack task manager website for professionals and small businesses using Node, express, and MongoDB.
- To-do list lets users streamline their personal and team productivity and work more effectively. Users can create custom list by entering title of the list at the end of the URL.

Weather App

- This website is developed using vanilla JavaScript and fetching data from an open weather API.
- In this, the users can enter the name of the city and App will display current weather data related to that city.

Experience

Freelancer

06/2020 – Present

- Used various technologies, such as JavaScript, Nodejs, PHP, HTML, CSS, and various libraries respected to technologies such as Reactjs, Bootstrap, and jQuery etc.
- Determined the coding requirements for site creation, including eCommerce capability and security and specialized scripts. Tested websites and performed user testing and trouble shooting prior to live deployment
